

# Plone Site

A Plone Site with Classic UI

Letzte Änderung: 22.04.2026

## Welcome!

[Learn more about Plone](#)

If you're seeing this text instead of the web site you were expecting, the owner of this web site has just installed Plone. Do not contact the Plone Team or the Plone support channels about this.

## Get started

Before you start exploring your newly created Plone site, please do the following:

1. Make sure you are logged in as an admin/manager user. You should have a Site Setup entry in the user menu.
2. [Set up your mail server](#). Plone needs a valid SMTP server to verify users and send out password reminders.
3. [Decide what security level you want on your site](#). Allow self registration, password policies, and more.

## Get comfortable

After that, we suggest you do one or more of the following:

- Get the latest [news](#) about Plone.
- Read the [documentation](#).
- Follow a [training](#).
- Explore the [available add-ons](#) for Plone.
- Read or subscribe to the [support channels](#).

## Make it your own

Plone has many settings to make it do what you want. Some examples include:

- Try out a different theme, either pick from [the included ones](#), or one of the [available themes from plone.org](#). Make sure the theme is compatible with the version of Plone you are currently using.
- [Decide what kind of workflow you want in your site](#). The default is typical for a public web site; if you want to use Plone as a closed intranet or extranet, you can choose a different workflow.
- By default, Plone uses a visual editor for content. If you prefer text-based syntax and/or wiki syntax, you can change this in the [markup control panel](#)
- ...and many more settings are available in the [Site Setup](#).

## Tell us how you use it

Are you doing something interesting with Plone? Big site deployments, interesting use cases? Do you have a company that delivers Plone-based solutions?

- Add your company as a [Plone provider](#).
- Add a [success story](#) describing your deployed project and customer.

## Find out more about Plone

Plone is a powerful content management system built on a rock-solid application stack. Read about its technology on the [Plone web site](#).

## Support the Plone Foundation

Plone is made possible only through the efforts of thousands of dedicated individuals and hundreds of companies. The Plone Foundation:

- ...protects and promotes Plone.
- ...is a recognized 501(c)(3) charitable organization with the United States Internal Revenue Service.
- ...receives donations that may be tax-deductible.
- [Support the Foundation and help make Plone better!](#)

Thanks for using our product. We hope you like it!
